		STUDY MODULE D	ESCRIPTION FORM			
Name o Hea l	f the module/subject th and Safety Ins	struction	Code 1010101111011120352			
Field of study Civil Engineering First-cycle Studies			Profile of study (general academic, practical) general academic	Year /Semester		
Elective	path/specialty		Subject offered in:	Course (compulsory, elective)		
- Cvcle of study:			Form of study (full-time,part-time)	obligatory		
	First-cyc	le studies	full-time			
No. of h	iours			No. of credits		
Lectu	re: 4 Classes	s: - Laboratory: -	Project/seminars:	- 0		
Status of	of the course in the study	program (Basic, major, other)	(university-wide, from another f	ield)		
		other	unive	ersity-wide		
Educati	on areas and fields of sci	ence and art		ECTS distribution (number and %)		
techr	nical sciences			0 100%		
	Technical scie	ences		0 100%		
Responsible for subject / lecturer: Ewa Budniak email: ewa.budniak@put.poznan.pl tel. 616653438 Wydział Wydział Inżynierii Zarządzania ul. Strzelecka 11 60-965 Poznań Prerequisites in terms of knowledge, skills and social competencies:						
1	Knowledge	Student recognizes the fundamental risks to health and life, which are associated with functioning at the University.				
2	Skills	The student is able to apply this knowledge during the whole process of studying.				
3	Social competencies	The student is capable of taking	responsible action in emergen	cy situations.		
Assumptions and objectives of the course: The students become acquainted with the rules, regulations and rules relating to safety, work hygiene and fire protection.						
Know		mes and reference to the	educational results for	a neid of study		
 Knowledge: 1. Has a detailed knowledge of the rules, the way and the scope of the occupational health and safety, first aid and legal protection of work - [[K1A_W13]] 2. Knows the trends and common practices in terms of supervision of working conditions - [[K1A_W17]] 						
Skills: 1. Can acquire, integrate, interpret data from literature, database or other properly matched sources, both in English or other foreign language accepted as an international language of communication within Safety Engineering, as well as to draw conclusions formulate and justify opinions - [IK1A_U01]]						
2. Has the self-study ability and comprehends its importance - [[K1A_U05]]						
3. Has the necessary preparation to work in industrial environments and is familiar with safety rules related to this work as well as is able to enforce their application in practice - [[K1A_U11]]						
Social competencies:						
1. Understands the need and knows means how to self-study (first, second and third cycle studies, postgraduate studies, qualification courses)- improving professional, personal and social competence; can argument the need to learn for the whole life - [[K1A_K01]]						
 Is aware of the relevance of the study and understands non-technical aspect as well as consequences of engineering activity, including its impact on environment and taken responsibility of his decisions - [[K1A_K02]] 						
3 Is t team v	ully aware of the response vork as well as takes re	onsibility that he has taken for his esponsibility for mutually realized	own work and expresses readinand completed tasks - [[K1A	ness to comply with the rules of K03]]		

Assessment methods of study outcomes						
Written test, in which at least one answer is correct (answer is scored 0 or 1).						
Course description						
Selected legal legislation concerning occupational health safety and, including:						
a) the rights and obligations of students and universities in terms of occupational health and safety, and liability for infringement of the provisions and principles of health and safety at work,						
b) accidents and illnesses						
c) prevention with regard to the protection of the health of students.						
learning and working processes and methods to protect against risks towards students? health and life. Problems that are linked to the organisation of workplace, taking into account ergonomic principles, as well as including work stations with screen monitors and other office equipment. The proceedings in the event of accidents and emergency (e.g. fire, failure), including rules of first aid in the event of an accident.						
Basic bibliography:						
1. Legal regulations concerning safety in colleges and universities.						
Additional bibliography:						
Result of average student's workload						
Activity		Time (working hours)				
1. Participation in lectures		4				
Student's workload						
Source of workload	hours	ECTS				
Total workload	4	0				
Contact hours	4	0				
Practical activities	0	0
