		STUDY MODULE DES	CRIPTION FORM		
	f the module/subject Nort Course in Oc	ccupational Safety	Code 1011105211011120575		
Field of		· ·	Profile of study	Year /Semester	
Safety Engineering - Part-time studies - Secon			(general academic, practical) general academic	1/1	
Elective path/specialty Ergonomics and Work Safety			Subject offered in: Polish	Course (compulsory, elective) obligatory	
Cycle of study:			prm of study (full-time,part-time)		
Second-cycle studies			part-time		
No. of hours			No. of credits		
Lectu	re: <b>4</b> Classes	s: - Laboratory: -	Project/seminars:	- 0	
Status of the course in the study program (Basic, major, other)			(university-wide, from another field)		
		other	univo	ersity-wide	
Educati	on areas and fields of sci	ence and art		ECTS distribution (number and %)	
techr	nical sciences			0 100%	
Technical sciences				0 100%

		of the study and understands non-tee on environment and taken responsibi			
2 lo fu	lly owere of the reepo	naihility that ha has taken for his own	work and expresses readin	and to comply with the rules of	

Assessment methods of study outcomes						
Formative assessment:						
- on the basis of lecture: answers to questions about the material covered on current lectures.						
Collective assessment:						
- in terms of classes: written test, in which at least one answer is correct (answer is scored 0 or 1); credits will be given if a student has achieved at least 85% of all points						
Course description						
Selected legal legislation concerning occupational health safety and, including:						
a) the rights and obligations of students and universities in terms of occupational health and safety, and liability for infringement of the provisions and principles of health and safety at work,						
b) accidents and illnesses						
c) prevention with regard to the protection of the health of students.						
The impact of hazardous, harmful, and disruptive factors on safety and health. Risk assessment of factors which exist in learning and working processes and methods to protect against risks towards students? health and life. Problems that are linked to the organisation of workplace, taking into account ergonomic principles, as well as including work stations with screen monitors and other office equipment. The proceedings in the event of accidents and emergency (e.g. fire, failure), including rules of first aid in the event of an accident						
Basic bibliography:						
1. legal regulations concerning safety in colleges and universities						
Additional bibliography:						
Result of average student's workload
