Prere	quisites in term	s of knowledge, skills an	d social competencies:				
1	Knowledge	Basic knowledge of finance and	Basic knowledge of finance and enterprise management.				
2	Skills	Acquaintance of basic economic, financial and statistical categories, so as money, price of money, interest rate, institutions of the financial market.					
3	Social competencies	Awareness of meaning of the subject					
Assu	mptions and obj	jectives of the course:					
Educat	ing the ability of the ic	dentification, the measurement and	d the operating and financial ris	k management			
Study outcomes and reference to the educational results for a field of study							
Knowledge:							
1. Stud	ent deeply knows me	thods and instruments for modeling	ng information processes - [K2	A_W08]			
		nd instruments for shaping decision					
3. Student has a wide knowledge about processes of changes in organizational structures and in the process of managing these changes - [K2A_W15]							
Skills:							
1. Student knows how to interpret and explain correctly social, cultural, political, legal and economical phenomena and mutual relations between social phenomena - [K2A_U01]							
	Social competencies:						
1. Stud	1. Student is aware of the responsibility for own work and he is ready to follow rules of the team work and taking responsibility for tasks realized within the group - [K2A_K02]						
Tot table realized mallin the group [INE/INVZ]							

Assessment methods of study outcomes

Faculty of Engineering Management

Forming assessment:

- a) Classes: Current control of the level of knowledge verified in the discussion and questions asked during classes.
- b) Lecture: basing on questions asked during the lecture, which refer to previous lectures on the subject

Final assessment

Final test checking the total of knowledge on the subject obtained during classes and lectures. Required at least 60% of correct answers
