	STUDY MODULE D	ESCRIPTION FORM			
Name of the module/subject Organization of Production Preparation				Code 1011104441011120877	
Field of study Logistics - Part-time	Profile of study (general academic, practical (brak)	(general academic, practical)			
Elective path/specialty	Subject offered in: Polish		Course (compulsory, elective) elective		
Cycle of study:	Form of study (full-time,part-time)				
First-cycle studies		part-time			
No. of hours				No. of credits	
Lecture: 12 Classe	s: - Laboratory: -	Project/seminars:	10	5	
Status of the course in the study	(university-wide, from another field) (brak)				
Education areas and fields of sc			ECTS distribution (number and %)		
technical sciences				5 100%	
Technical sci	ences			5 100%	
Responsible for subj	ect / lecturer:	Responsible for subje	ct /	lecturer:	
prof. dr hab. inż. Aleksan email: aleksandra.kawech tel. 61- 6653370	dr inż. Roma Marczewska-Kuźma email: roma.marczewska-kuzma@put.poznan.pl tel. 61-6653364				
Wydział Inżynierii Zarząd ul. Strzelecka 11 60-965		Wydział Inżynierii Zarządzania ul. Strzelecka 11 60-965 Poznań			
Prerequisites in tern	ns of knowledge, skills an	d social competencies:	:		
1 Knowledge		ness processes, design, organization and implementation of the s in the area of design, evaluation, verification and			
2 Skills	Student is able to use knowledg	e acquired during courses of other subjects			
3 Social	Student is responsible and can interact with others and work in a team				
competencies		or lifelong learning and acting in	n aco	ordance with the rules	
-	jectives of the course:				
Presenting knowledge of the selected methods applied in	eoretical and practical problems co this scope.	nnected with organization of p	rodu	ction preparation and	
Study outco Knowledge:	omes and reference to the	educational results for	' a f	ield of study	
	on product life cycle [M/18]				
-	on product life cycle - [W18] and instruments for amassing, pro	cessing and selecting data wit	hin r	ande of processes occurring	
in the preparation of the pro	duction - [W19]	cessing and selecting data with			
3. Knows principal methods	and instruments for modeling proc	cesses and phenomena taking	place	e in production - [W21]	
•	ation between the sphere of techn	ical product preparation and sy	/sten	n management - [W24]	
Skills:					
	s of the literature to show problem		prep	paration - [U01]	
2. Finds solutions to the problem concerning technical product preparation - [U05]					
3. Applies experimental techniques and computer simulations to solve problems in product preparation - [U08]					
 4. Elaborates system description of the problem concerning technical product preparation - [U10] 5. Is able to forecast economically production processes and phenomena - [U12] 					
	pearing in production processes and p				
Social competencies					

1. Is able to complete and improve own knowledge - [K01]

2. Is willing to collaborate and work in a team - [K2]

3. Can extend his knowledge taking into account other aspects and effects of engineering activity and its influence on environment - [K03]

4. Is determined to think and act in an enterprising and effective way - [K06]

Assessment methods of study outcomes

Forming assessment:

a) Classes: Current assessment of activity during classes

b) Lecture: basing on questions asked during the lecture, which refer to previous lectures on the subject

Final assessment:

a) Classes: colloquium

b) Lectures: final test

Course description

Production process components, range of tasks. Production process management, technical humanization and economical aspects. Product traits, quality and reliability. Objectives, tasks and functions of product production preparation in industrial company. Constructive, technological and organizational preparation of the production ? planning and designing, far-reaching and current activity. Notion and significance of technology of products construction. Technological processes of assembly. Computer aid CAD and CAD/RAM. Curve of product life cycle. Costs of the production preparation. Documentation of production preparation and flow. Organization structure of product preparation units. Designing unit, serial and mass production; group technology, Flexible Manufacturing System. Starting new production. Innovative processes in activity of industrial company.

Basic bibliography:

1. Organizacja technicznego przygotowania produkcji prac rozwojowych, Kawecka-Endler A., Politechniki Poznańskiej, Poznań, 2004

2. Inżynieria produkcji, Karpiński T., WNT, Warszawa, 2007

Additional bibliography:

1. Inżynieria zarządzania. Strategia i projektowanie systemów produkcyjnych cz.2, Durlik I., Agencja Wydawnicza Placet, Warszawa, 2005

Result of average student's workload

Activity	Time (working hours)			
1. Lecture	12			
2. Classes	10			
3. Preparation for classes	30			
4. Consultations	40			
5. Preparation for final test	28			
6. Final test	5			

Student's workload

Source of workload	hours	ECTS
Total workload	100	5
Contact hours	50	2
Practical activities	40	1
