

<b>STUDY MODULE DESCRIPTION FORM</b>		
Name of the module/subject <b>Exploitation of energy sources in electric power system</b>		Code <b>1010311471010316273</b>
Field of study <b>Power Engineering</b>	Profile of study (general academic, practical) <b>(brak)</b>	Year /Semester <b>4 / 7</b>
Elective path/specialty <b>Electrical Power Engineering</b>	Subject offered in: <b>Polish</b>	Course (compulsory, elective) <b>obligatory</b>
Cycle of study: <b>First-cycle studies</b>	Form of study (full-time, part-time) <b>full-time</b>	
No. of hours Lecture: <b>30</b> Classes: <b>-</b> Laboratory: <b>15</b> Project/seminars: <b>15</b>		No. of credits <b>7</b>
Status of the course in the study program (Basic, major, other) <b>(brak)</b>		(university-wide, from another field) <b>(brak)</b>
Education areas and fields of science and art <b>technical sciences</b> <b>Technical sciences</b>		ECTS distribution (number and %) <b>7 100%</b> <b>7 100%</b>
<b>Responsible for subject / lecturer:</b>  Radosław Szczerbowski email: radoslaw.szczerbowski@put.poznan.pl tel. 61 665 20 30 Elektryczny ul. Piotrowo 3A, 60-965 Poznań		
<b>Prerequisites in terms of knowledge, skills and social competencies:</b>		
1	<b>Knowledge</b>	Has a basic knowledge about the energy technology and electric machines, and fuel and energy conversion.
2	<b>Skills</b>	Understand the basic principles of operation of the machines and know the construction of power generation equipment
3	<b>Social competencies</b>	Is aware of the need to expand their skills and willingness to work together as a team.
<b>Assumptions and objectives of the course:</b> Gaining basic knowledge about the tasks, the role and operation of generation sources in the power system. Understanding and applying the principles of correct operation of power equipment.		
<b>Study outcomes and reference to the educational results for a field of study</b>		
<b>Knowledge:</b>		
1. Has a general knowledge about work of different generation sources in the power system including energy security - [K_W07++K_W09+]		
2. Knows the basic principles of operation and use of power sources in the power system - [K_W12++]		
<b>Skills:</b>		
1. Student is able to characterize the Polish power system from the point of view of generation sources - [K_U20++]		
2. Able to assess the role and suitability of generation sources to work in the power system, and can analyze circuits of thermal power plants - [K_U22++]		
<b>Social competencies:</b>		
1. Understand the role of generation sources in the power system, and is aware of the importance of the role of the energy engineer in planning and operation of the power system - [K_K02++]		
<b>Assessment methods of study outcomes</b>		

<p>Lecture. Continuous evaluation for each course: skills and competences by conducting discussions on current issues related to the work, knowledge evaluation based on written work about problematic character.</p> <p>Laboratory. tests the knowledge necessary for the accomplishment of problems evaluation knowledge and skills related to the implementation of the tasks, evaluation report on performed exercise.</p>		
<b>Course description</b>		
<p>The national energy system, including the role of distributed generation including renewable energy sources. Characteristics cogeneration local energy systems. The role of distributed generation on domestic energy market. Indicators characterizing the work of generation sources. Optimization of the energy. criteria and methods for the delivery of the optimization. Working conditions for different types of generation sources in the power system.</p>

<b>Result of average student's workload</b>		
<b>Activity</b>	<b>Time (working hours)</b>	
1. udział w wykładach	30	
2. przygotowanie do egzaminu	25	
3. obecność na egzaminie	5	
4. udział w konsultacjach w zakresie wykładów	5	
5. udział w laboratoriach	15	
6. przygotowanie do ćwiczeń laboratoryjnych	10	
7. opracowanie sprawozdań z laboratorium	20	
8. udział w konsultacjach w zakresie laboratorium	5	
9. udział w zajęciach projektowych	15	
10. udział w konsultacjach w zakresie projektu	10	
11. samodzielne wykonanie projektu	30	
<b>Student's workload</b>		
<b>Source of workload</b>	<b>hours</b>	<b>ECTS</b>
Total workload	170	7
Contact hours	85	3
Practical activities	95	4
