STUDY MODULE DESCRIPTION FORM						
Name of the module/subject Systems for public administrations			Code 1010335511010337162			
Field of study Information Engine	oring	Profile of study (general academic, practica (brak)				
Elective path/specialty		Subject offered in:	1/1 Course (compulsory, elective)			
Cycle of study:	-	Polish Form of study (full-time,part-time	elective			
Second-cycle studies		part-time				
No. of hours			No. of credits			
Lecture: 16 Class	es: - Laboratory: 16	Project/seminars:	- 4			
Status of the course in the stud	ly program (Basic, major, other)	(university-wide, from anothe	r field)			
	(brak)		(brak)			
Education areas and fields of s	cience and art		ECTS distribution (number and %)			
technical sciences			4 100%			
Responsible for sub Prof. dr hab. inż. Czesła email: czeslaw.jedrzejel tel. 61 665 35 32 Elektryczny ul. Piotrowo 3A, 60-965	∽ w Jędrzejek :@put.poznan.pl					
	ns of knowledge, skills an	d social competencies	5:			
1 Knowledge	K_W05: Student has comprehensive knowledge with theoretical foundations of IT system modelling and analysis.					
	K_W08:has knowledge of advanced programming techniques and methods					
	K K01: potrafi myśleć i działać y	w sposób kreatywny i przedsi	ebiorczy			
2 Skills	K_K01: potrafi myśleć i działać w sposób kreatywny i przedsiębiorczy K_U05: Student is able to model and to analyse IT systems. K_U08: Student (in cooperative tasks) is able to formulate specifications for unusual and intricate IT systems.					
3 Social competencies	K_K01: Student is able to think a	and work in a creative and inv	ventive way.			
Assumptions and objectives of the course: To familiarize students with the legal system in Poland and the European Union, Polish constitutional principles of public administration? state and local government. System for public administration. Laboratories are devoted to practical aspects of data commonly used in public administration. To familiarize students with the techniques and standards for video compression and sound. To familiarize students with the techniques and multimedia standards multimedia. Practical use of encoders and execution of web programming languages Study outcomes and reference to the educational results for a field of study						
	unes and reference to the	euucational results to	or a neiù or study			
Knowledge:						
 has knowledge of advanced programming techniques and methods - [K_W08] Student has basic knowledge of special purpose IT systems [K_W12] 						
Skills:						
	asks) is able to design and implement	ent parts of unusual and intric	ate IT systems [K_U09]			
2. Student is able to evaluate the usefulness of IT tools and technologies for a given IT task [K_U10]						

Social competencies:

1. Student understands the necessity of distributing information on computer science advancements and other issues related to computer engineer work. Student tries to distribute the information in a clear way and to present the facts from different points of view. - [K_K02]

Assessment methods of study ou	itcomes				
Lecture: The final written test checking the knowledge of public administration systems.					
Laboratories: credit classes on the processing of semi-structured and structured data and semantic data.					
Course description					
Lecture:					
1. The legal system in Poland and the European Union. Constitutional principle of the Polish public administration: state and local government. System and the law-making institutions in Poland. The legislation setting					
3. Public administration and local government. The division of tasks and responsibilities.					
4, Review of administration systems					
(central government and local). Workflow systems.					
Evidence of population and system of PESEL2. Review of records and ePUAP system.					
Other software and requirements.					
4.Legal aspects of computerization of public administration. Information Society. The Law on Access to Information and the public. The Law on Personal Data Protection. Impact computerization of administrative procedures.					
The law and practice of public procurement. Selected issues related to computerization.					
5. Status of computerization of public administration in Poland compared to the leading countries. Problems of implementatio e-administration systems.					
6.Semantic aspects of the process of law-making and information technology. Metalex Akom Ntoso and Norma metadata systems.					
Laboratory:					
Methods of storing and processing of data commonly used in public administratic database	on. Classes are carried	out using the native			
XML data - baseX, relational database server MS SQL 2008 tools Protege 4.1 ar Studio. The issue of storage of structured data (XML), the implementation of que application written in Java, as well as technologies	nd Eclipse developmen ries (XPath, XQuery), a	t platform and Visual access to data from a			
Web services (REST). The issues related to the semantic description of the data used method of semantic description of documents (OWL, SWRL), and data queries to explicitly defined semantics (SPARQL). In addition, questions have been raised on the integrity and reliability of the data using an electronic signature mechanism for XML documents.					
Basic bibliography:					
1. PAŃSTWO 2.0, NOWY START DLA E-ADMINISTRACJI WARSZAWA, KWIE	CIEŃ				
 PANSTWO 2.0, NOWY START DLA E-ADMINISTRACJ WARSZAWA, RWIECIEN Raport: E-PODLASKIE ? KIERUNKI ROZWOJU SPOŁECZEŃSTWA INFORMACYJNEGO WOJEWÓDZTWA PODLASKIEGO RAPORT KOŃCOWY BIAŁYSTOK, 28 marca 2011 r. 					
3. Materiały: L edycja seminarium w cyklu INFORMATYKA W ADMINISTRACJI - ELEKTRONICZNE TWORZENIE I OGŁASZANIE AKTÓW PRAWA MIEJSCOWEGO 30 sierpnia 2011 r. Warszawa
