## **Faculty of Engineering Management**

		STUDY MODULE D	FS	CRIPTION FORM			
Name of the module/subject  Computer Science				Code 1011104221011000390			
Field of study  Safety Engineering - Part-time studies - First-				Profile of study (general academic, practical) (brak)  Year /Semester 1 / 2			
Elective path/specialty				Subject offered in:  Polish		Course (compulsory, elective)  obligatory	
Cycle o	f study:		Fori	m of study (full-time,part-time)			
First-cycle studies				part-time			
No. of h	iours		•			No. of credits	
Lectu	re: - Classe:	s: - Laboratory: 16	<b>)</b>	Project/seminars:	-	2	
Status	of the course in the study	program (Basic, major, other)	(	university-wide, from another f	ield)		
		(brak)		(brak)			
						ECTS distribution (number and %)	
tel. Fac ul. S	ail: krzysztof.hankiewio 616653408 ulty of Engineering Ma Strzelecka 11 60-965 P equisites in term	anagement	d so	ocial competencies:			
1	Knowledge	Student has knowledge of the su	ubjed	ects of Information Technology			
2	Skills	Student can use previously learned applications					
3	Social competencies	Student is active and willing to participate in the discussion on a given topic					
Assu	mptions and obj	ectives of the course:					
		repare for using application progra n of information systems	ams.	Acquiring the specification	of	useful information,	
	Study outco	mes and reference to the	edı	ucational results for	a f	ield of study	
Knov	vledge:						
Student knows the current trends and best practices in information technology - [K1A_W16]							
2. Stud [K1A_\		echniques and tools used to solve	sim	ple engineering tasks using	g inf	ormation technology -	
Skills	<b>S</b> :						
1. Stud	dents can acquire, inte	grate, interpret information from li	terat	ure, databases and other s	ele	cted sources - [K1A_U01]	
of soci		the theoretical knowledge to descregal, economic) and is able to form _U02]					

- 3. The student has the ability to self-learning and understands it [K1A\_U05]
- 4. Student is able to use information and communication technology for the tasks of typical engineering activities [K1A\_U07]

## Social competencies:

- 1. Student understands the need and knows the possibilities of lifelong learning [K1A\_K01]
- 2. Student can work in team [K1A\_K02]
- 3. Student understands the need to provide information and opinions on the achievements of technology and other aspects of engineering [K1A\_K07]

## Assessment methods of study outcomes

## Poznan University of Technology Faculty of Engineering Management

Formative assessment:						
computer applications tests						
Collective assessment:						
the average of marks given						
Course description						
The course covers the following topics The concept of the algorithm and calculation. Structured programming languages and notations algorithms. Introduction to object-oriented programming with the help of tools to quickly generate an application (Visual Basic). Creating simple programs in Visual Basic with regard to conditional statements and iteration using different objects.						
Basic bibliography:						
Additional bibliography:						
Result of average student's workload						
Activity	Time (working hours)					
Participation in computer laboratory classes		16				
2. Preparation for exercises	15					
3. Preparation for test	15					
4. Konsultacje	5					
Student's workload						
Source of workload	hours	ECTS				
Total workload	51	2				
Contact hours	21	2				
Practical activities	40	2
