

STUDY MODULE DESCRIPTION FORM		
Name of the module/subject Basis of occupational health and safety management		Code 1011102211011126456
Field of study Safety Engineering - Full-time studies - Second-	Profile of study (general academic, practical) (brak)	Year /Semester 1 / 1
Elective path/specialty Ergonomics and Work Safety	Subject offered in: Polish	Course (compulsory, elective) obligatory
Cycle of study: Second-cycle studies	Form of study (full-time, part-time) full-time	
No. of hours Lecture: 15 Classes: 15 Laboratory: - Project/seminars: 15		No. of credits 3
Status of the course in the study program (Basic, major, other) (brak)		(university-wide, from another field) (brak)
Education areas and fields of science and art		ECTS distribution (number and %)
Responsible for subject / lecturer:		
dr Jerzy S. Marcinkowski email: email: jerzy.s.marcinkowski @put.poznan.pl tel. tel. 61-6653408 ; 61 6653374 Wydział Inżynierii Zarządzania ul. Strzelecka 11,60-965 Poznań		
Prerequisites in terms of knowledge, skills and social competencies:		
1	Knowledge	The student has a basic knowledge in the field of safety engineering, including occupational safety, hazard identification and occupational risk assessment
2	Skills	The student is able to diagnose the effects of the work process. The student is able to assess occupational risk. The students can prepare a data bank to develop SZBP
3	Social competencies	The student is aware of the problems relating to health and safety at work. Students can work in a group
Assumptions and objectives of the course:		
The aim of the course is to familiarize students with the basic principles of managing health and safety at work		
Study outcomes and reference to the educational results for a field of study		
Knowledge:		
1. The student has an extended knowledge of discerning the belonging of a particular problem belonging to Safety Engineering - [[K2A_W01]] 2. The student knows the in-depth characteristics of dependencies found in Safety Engineering - [[K2A_W02]] 3. . Students knows the importance of the majority of dependencies in Safety Engineering - [[K2A_W03]] 4. Student know the detailed dependencies within the framework of Safety Engineering - [[K2A_W10]] 5. The student knows the best practices in Safety Engineering - [[K2A_W14]]		
Skills:		
1. Can acquire, integrate, interpret data from literature, database or other properly matched sources- concerning Safety Engineering - [[K2A_U1]] 2. . Can create, both in English and Polish language, a well- documented report of problems within Safety Engineering - [[K2A_U3]] 3. Can prepare and give oral presentation relating to detailed issues within the realm of Safety Engineering in Polish and other foreign language. - [[K2A_U4]] 4. Can, while formulating and solving engineering tasks, discern their systemic and non-technical aspects and also socio-technical, organizational and economic approach - [[K2A_U10]] 5. Has got the preparation that is indispensable to be able to work in an industrial environment and also knows safety rules connected with a given work along with the ability to impose their use in practice - [[K2A_U13]] 6. Student can, according to a given specification, design and operate simple equipment, object, system or a process, typical for Safety Engineering - [[K2A_U18]]		

<p>Social competencies:</p> <p>1. Student is fully aware of the responsibility that he has taken for his own work and expresses readiness to comply with the rules of team work as well as responsibility for mutually realized and completed tasks. - [[K2A_K3]]</p> <p>2. Can determine some causal relationships in the process of targets implementation and rank pertinence of alternative or competitive tasks - [[K2A_K4]]</p> <p>3. The student is aware of the social role of a technical college graduate, especially understands the need for the formulation and communication to the society - [[K1A_K7]]</p>

<p>Assessment methods of study outcomes</p>
<p>Formative assessment:</p> <p>Classes and Projects: on the basis of an active participation during classes</p> <p>Lectures: on the basis of oral answers for the questions connected with the presented material during current and previous lectures</p> <p>Collective assessment:</p> <p>Classes and Projects: grade for the presentation: classes and project</p> <p>Lectures: exam or a written pass in the form of answering 3-5 questions, from a set of questions that will be previously given; every answer is scored 1-3 point; credits will be given after achieving at least 5 points when answering 3 questions, and 8 point when giving answers to 5 questions.</p>

<p>Course description</p>
<p>1 PROFESSIONAL RISK MANAGEMENT.</p> <p>1.1. Corrective actions to reduce the risks associated with the performed work</p> <p>1.2. Occupational health and safety training</p> <p>1.3. Emergency handling</p> <p>1.4. The use of analysis and risk assessment in a company</p> <p>2. SAFETY AND HEALTH MANAGEMENT AT WORK.</p> <p>2.1 Definition of occupational health and safety</p> <p>2.2 Traditional and systemic approach to occupational safety</p> <p>3 BASIC OCCUPATIONAL HEALTH AND SAFETY MANAGEMENT OBJECTIVES</p> <p>3.1 The objectives of occupational health and safety management</p> <p>3.2 Principles of effective occupational health and safety management</p> <p>4. OCCUPATIONAL HEALTH AND SAFETY MANAGEMENT SYSTEM / SZBIZWP / AND ITS COMPONENTS.</p> <p>4.1 Occupational health and safety policy in a company</p> <p>4.2 Planning activities for occupational safety</p> <p>4.3 Implementation and functioning of occupational health and safety management</p> <p>4.4 Monitoring and audit SZBIZWP. Types of safety audits.</p> <p>4.5 Overview of the system.</p> <p>4.6 The documentation of occupational health and safety management</p> <p>4.7 Basic conditions for the effective functioning of the ISMS ZWP</p>

<p>Basic bibliography:</p>

<p>Additional bibliography:</p>
--

<p>Result of average student's workload</p>	
<p>Activity</p>	<p>Time (working hours)</p>
1. lecture	15
2. classes	15
3. project.	15
4. individual work	60

Student's workload		
Source of workload	hours	ECTS
Total workload	105	4
Contact hours	45	2
Practical activities	60	2
