# Assessment methods of study outcomes

# **Faculty of Engineering Management**

forming rating: based on answers to questions related to the material discussed in the previous lectures summary rating: on the basis of a written multiple-choice test with answers, of which at least one answer is correct; each question is scored on a scale from 0 to 1, the test is passed with at least 55% of the points

# **Course description**

- I. Genesis, structure and development of the European Union. European Union law and international law. The EU institutional system.
- II. General principles of the European Union law (primacy over national law, the principle of direct effect, the solidarity principle, the subsidiarity principle, the proportionality principle, the principle of the powers conferred, the principle of institutional balance)
- III. The sources of the EU law. Primary law and secondary legislation. International agreements concluded by the EU. Jurisprudence of the Court of Justice of the European. Union. Instruments of the EU Common Foreign and Security Policy
- IV. The EU System of legal protection. Treaty infringement proceedings. Actions for annulment. Complaints for failure to act. Actions for damages
- V. The fundamental freedoms of the EU internal market
- VI. THe EU competition policy. State aid
- VII. The Cohesion policy
