

STUDY MODULE DESCRIPTION FORM		
Name of the module/subject A Short Course in Occupational Safety		Code 1011102311011120575
Field of study Engineering Management - Full-time studies -	Profile of study (general academic, practical) general academic	Year /Semester 1 / 1
Elective path/specialty Quality Systems and Ergonomics	Subject offered in: Polish	Course (compulsory, elective) obligatory
Cycle of study: Second-cycle studies	Form of study (full-time,part-time) full-time	
No. of hours Lecture: 4 Classes: - Laboratory: - Project/seminars: -		No. of credits 0
Status of the course in the study program (Basic, major, other) other		(university-wide, from another field) university-wide
Education areas and fields of science and art technical sciences Technical sciences		ECTS distribution (number and %) 0 100% 0 100%
Responsible for subject / lecturer: dr inż. Adam Górny email: adam.gorny@put.poznan.pl tel. +48(61) 665 34 07 Faculty of Engineering Management ul. Strzelecka 11 60-965 Poznań		Responsible for subject / lecturer: dr inż. Beata Mrugalska email: beata.mrugalska@put.poznan.pl tel. +48(61) 6653364 Faculty of Engineering Management ul. Strzelecka 11 60-965 Poznań
Prerequisites in terms of knowledge, skills and social competencies:		
1	Knowledge	Student recognizes the fundamental risks to health and life at the level of secondary school.
2	Skills	The student is able to learn and react to hazard situations.
3	Social competencies	The student is able to work in a team.
Assumptions and objectives of the course: The students become acquainted with the rules, regulations and rules relating to safety, work hygiene and fire protection.		
Study outcomes and reference to the educational results for a field of study		
Knowledge:		
1. Has a detailed knowledge of the rules, the way and the scope of the occupational health and safety, first aid and legal protection of work - [K05-InzA_W03]		
2. Knows the trends and common practices in terms of supervision of working conditions - [K05-InzA_W03]		
Skills:		
1. Ability to organize a workstation - [-]		
2. Ability to correct behaviour in hazard situation - [-]		
3. Ability to provide first aid - [-]		
Social competencies:		
Assessment methods of study outcomes		

<p>Formative assessment: - on the basis of lecture: answers to questions about the material covered on current lectures. Collective assessment: - in terms of classes: written test, in which at least one answer is correct (answer is scored 0 or 1); credits will be given if a student has achieved at least 85% of all points</p>		
Course description		
<p>Selected legal legislation concerning occupational health safety and, including: a) the rights and obligations of students and universities in terms of occupational health and safety, and liability for infringement of the provisions and principles of health and safety at work, b) accidents and illnesses c) prevention with regard to the protection of the health of students. The impact of hazardous, harmful, and disruptive factors on safety and health. Risk assessment of factors which exist in learning and working processes and methods to protect against risks towards students' health and life. Problems that are linked to the organisation of workplace, taking into account ergonomic principles, as well as including work stations with screen monitors and other office equipment. The proceedings in the event of accidents and emergency (e.g. fire, failure), including rules of first aid in the event of an accident .</p>
