Skills:	Skills:				

1. Can describe and analyze economic phenomena in the field of managerial accounting - [K2A_U01]

2. Can use the methods and tools of managerial accounting to solve problems - [K2A_U02]

3. Can combine the use of methods and tools of managerial accounting with methods and instruments of financial accounting - [K2A_U04]

4. Can formulate and analyze issues and problems of managerial accounting occuring in company management - [K2A_U05]

5. Can apply basic methods and instruments of cost calculations in solving basic decision-making problems in the area of managerial accounting $-[K2A_U06]$

6. Has basic skills necessary to prepare budgets for the enterprise - [K2A_U07]

7. Has the ability to understand and analyze social phenomena, enhanced by the ability to in-depth theoretical evaluation of these phenomena in selected areas, with a use of a research method - [K2A_U08]

Social competencies:

1. Is aware of the need for constant self-education in the field of managerial accounting - [K2A_K01]

2. Is prepared to actively participate in groups and organizations active in the area of managerial accounting - [K2A_K02]

3. Is able to independently develop knowledge of the subject, including finding publications and materials of the subject - [K2A_K03]

4. Can make a subject-related discussion about the costs in the company, with the accounting and / or finance staff, while respecting the rules of professional ethics - [K2A_K04]

5. Can substantially contribute to the preparation of social projects - [K2A_K05]

6. Is aware of interdisciplinary knowledge and skills needed to solve complex problems in the field of managerial accounting - [K2A_K06]

Assessment methods of study outcomes

Formative evaluation:

- Lecture ? brief discussions verifying the effectiveness of the education process, adapting teaching to the level of students, and showing students the scope of the material of Managerial Accounting class,

- Laboratories - current presentation of the issues carried out during laboratories

Summative evaluation:

- Laboratories-evaluation of proper execution of laboratory work

- Lectures - a written examination, lasting about 60 minutes. Consisting of theoretical questions requiring the use of examples; the exam is usually carried out in the 14th week of the semester.

Course description

Cost, cost accounting, cost classification. Cost accounting systems. Costing methods. Traditional costing accounts. Planned Cost Accounting. Budgeting. Modern concepts of cost accounting. Managerial accounting of responsibility centers. Concepts of strategic cost management and strategic planning and controlling. Managerial accounting concepts in the construction of operational cost accounting systems. The organization and methods of operating costs controlling. The use of cost information in selected areas of decision-making
