		STUDY MODULE D	ESCRIPTION FORM		
Name of the modul Statistics	e/subject			Code 1011102311011000139	
Field of study	. Managa	ment Full time etudice	Profile of study (general academic, practical		
		ment - Full-time studies -		1 / 1 Course (compulsory, elective	
Elective path/speci Q	-	stems and Ergonomics	Subject offered in: Polish	obligatory	
Cycle of study:			Form of study (full-time,part-time)		
Second-cycle studies			full-time		
No. of hours				No. of credits	
Lecture: 15	Classes	s: 15 Laboratory: -	Project/seminars:	- 3	
Status of the course in the study program (Basic, major, other) (brak)			(university-wide, from another field) (brak)		
Education areas ar		. ,		ECTS distribution (number and %)

Assessment methods of study outcomes

Forming score:

on the basis of written tests and oral answers.

Summary score:

the summary points obtained by the written tests and classes activity.

Course description

The basic concepts of probability will be discussed i.e.: probability space, random variables, elements of descriptive statistics, distributions of statistics and their practical applications, methods of statistical inference - estimation, hypothesis verification and analysis of correlation and regression, komputerowe wspomaganie obliczeń.

Basic bibliography:

- 1. Jay L. Devore. Probability and Statistics for Engineering and the Sciences. Ninth or eighth Edition, 2012, 2015
- 2. Douglas C. Montgomery, G. C. Runger. Applied Statistics and probability for Engineers. Third or higher edition, 2003
- 3. Anthony Hayter. Probability and Statistics for Engineers and Scientists. Fourth edition

Additional bibliography:

- 1. Aczel A.D. Statystyka w zarządzaniu. Wyd. Naukowe PWN. 2000.

Result of average student's workload

	Activity	Time (working hours)
1. 1.	Lectures participation	15
2. 4.	the study of literature and the development of cross-cutting project	20
3. 2.	Classes participation	15
4. 3.	Cunsultaion and e-consultation	6
5. 5.	preparing to test knowledge or individual project presentation	4
6. 6.	preparation for tutorials	15

Student's workload

Source of workload	hours	ECTS		
Total workload	75	3		
Contact hours	34	2		
Practical activities	15	1
