		STUDY MODULE D	ESCRIPTION FORM					
	oma Seminar		Cc 10		de 10102131010110109			
Field of	study		Profile of study (general academic, practica	ıl)	Year /Semester			
Civil Engineering Second-cycle Studies			(brak)	,	2/3			
Elective path/specialty Structural Engineering			Subject offered in: Polish		Course (compulsory, elective) obligatory			
Cycle of study:			Form of study (full-time,part-time)				
Second-cycle studies			full-time					
No. of h	nours				No. of credits			
Lecture: - Classes: 15 Laboratory: -			Project/seminars: - 3					
Status	of the course in the study	program (Basic, major, other)	(university-wide, from another field)					
	I	(brak)	(brak)					
Educati	on areas and fields of sci	ence and art			ECTS distribution (number and %)			
Responsible for subject / lecturer: dr hab. inż. Maciej Szumigała email: maciej.szumigala@put.poznan.pl tel. 061 665 2401 Faculty of Civil and Environmental Engineering ul. Piotrowo 5 60-965 Poznań								
Prere	equisites in term	s of knowledge, skills an	d social competencies	:				
1	Knowledge	Advanced knowledge of the stre structures, reinforced concrete s	ength of materials and mechanics of structures, metal structures, masonry structures, wood structures.					
2	Skills	The ability to acquire information various buildings.	n from all sources, prepare a full project documentation of					
3	Social competencies	Awareness of the need to broaden their skills and taking a major responsibility in their future careers.						
Assu	mptions and obj	ectives of the course:						
Gaining ability to broaden knowledge through reading the science and technology press, presentation of the acquired knowledge and the results of their own work in public, participation in public discussion.								
	Study outco	mes and reference to the	educational results fo	r a f	ield of study			
Knov	vledge:							
Knows the principles of analysis, design and dimensioning elements of buildings - [K_W02]								
2. Knows classification and scope of supporting computer programs [K_W08]								
3. Kno	ws the technical condi	tions of designing buildings and the	neir components - [K_W014]					
Skills	S:							
1. Can make the evaluation and ranking of any loads acting on buildings - [K_U01]								
2. Can perform static, dynamic and stability analysis of buildings [K_U04]								
	3. Can design elements and their connections in complex construction projects - [K_U03]							
		odel of the structure and analyze in	t [K_U06 K_U13]					
	al competencies:							
1. While realizing certain task can work independently and in a team - [K_K01]								

Assessment methods of study outcomes

3. Complements and extends knowledge in the field of modern processes and technologies independently - [K_K03]

2. Is responsible for the accuracy of the results of own work - $[K_K02]$

Faculty of Civil and Environmental Engineering

Receiving credit for seminar on the basis of:

- Assessment of the presentation on the technical topic,
- Assesment of presentation of own graduate work,
- Participation in the discussion

Course description

Reminding about general rules for carrying out the final exam and the preparation of a graduate work.

Searching for an interesting topic from scientific - technical literature and developing it by every student and presenting it in the form of public presentation.

Preparation and presentation of the presentation of own graduate work.

Participation in the public debate after the presentation of the results of their own work and the work of other graduates.

Basic bibliography:

- 1. Technical Books in line with the theme of work
- 2. PN and EC

Additional bibliography:

1. Polish and European technical standards and construction

Result of average student's workload

Activity	Time (working hours)

Student's workload

Source of workload	hours	ECTS				
Total workload	75	3				
Contact hours	30	2				
Practical activities	15	1
