Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

Knowledge acquired during the lecture is verified by carrying out two tests. The first one covers some of the issues presented in the lecture. Required complementation of knowledge based on literature studies. The test is considered passed when the student obtains at least 55% of the total points. The second test is the final test, covering all the material discussed during lectures, which requires supplementation and consolidation in the study of the student's own work and literature studies. At least 55% of correct answers are required. The final note can be higher thanks to the student's activity - preparing additional work e.g. essay.

Skills acquired as part of the tutorials are reinforced based on two tests (partial and final). Tests cover theoretical and practical issues (task solving) from the program content.
