

## COURSE DESCRIPTION CARD - SYLLABUS

Course name

Foundations of Commercial and National Insurance

### Course

Field of study

Engineering Management

Area of study (specialization)

Level of study

First-cycle studies

Form of study

full-time

Year/Semester

3/6

Profile of study

general academic

Course offered in

English

Requirements

elective

### Number of hours

Lecture

15

Tutorials

15

Laboratory classes

Projects/seminars

Other (e.g. online)

### Number of credit points

2

### Lecturers

Responsible for the course/lecturer:

Ph.D., D.Sc., Marek Szczepański, University  
Professor

Responsible for the course/lecturer:

Mail to: [marek.szczepanski@put.poznan.pl](mailto:marek.szczepanski@put.poznan.pl)

Phone: 61 665 33 93

Faculty of Engineering Management

ul. J. Rychlewskiego 2, 60-965 Poznań

### Prerequisites

The student is able to obtain and interpret basic legal acts and other regulations (e.g. General Terms and Conditions of Insurance) regarding economic and social insurance. The student has the ability to work in a team and apply knowledge of the economy and in the field of law to solve problems related to enterprise and household risk management.

### Course objective

The aim of the course is:

- to familiarize students with the basic knowledge in the field of business insurance and social security.
- to develop practical skills related to making decisions on the selection of insurance for specific types of risk in the enterprise and in the household.
- to develop the ability to assess the types of risk and properly apply the methods of its reduction (insurance method and non-insurance methods).

### Course-related learning outcomes

#### Knowledge

1. The student has in-depth knowledge in the field of economic and social insurance necessary to understand and describe the issues of risk management in organizations [P6S\_WG\_01],
2. The student has knowledge of legal standards regarding economic and social insurance affecting the functioning of the organization [P6S\_WG\_02].
3. Has knowledge of network relationships of economic entities and the sharing of risk between participants of this type of economic networks [P6S\_WG\_05].

#### Skills

1. The student is able to use the basic knowledge of economic and social insurance to analyze economic and management processes in the enterprise [P6S\_UW\_01].
2. Student is able to interpret social and economic phenomena in the context of managing economic and social cry [P6S\_UW\_06].
3. Student is able to properly analyze the causes and course of specific social and economic processes and phenomena in the field of risk management, using the insurance method [P6S\_UW\_06].

#### Social competences

- 1 The student is able to see the cause-and-effect relationships in achieving the set goals and rank the importance of alternative or competitive tasks using knowledge of insurance [P6S\_KK\_02].
2. The student is aware of the importance of professional behavior, compliance with the principles of professional ethics and respect for the diversity of views and cultures, and attention to traditions of the managerial profession [P6S\_KR\_02].

3. The student is aware that creating products that meet the needs of users requires a systematic approach taking into account technical, economic, marketing, legal, organizational and financial issues, including knowledge in the field of insurance [P6S\_KR\_02].

### Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

Formative (partial) assessment of the lecture - test of the material provided during the first part of the lectures.

Final assessment of the lecture: final test covering the material of all lectures and mandatory literature on the subject.

### Programme content

1. Genesis of insurance.

1. Ronka-Chmielowiec W. (red.), Ubezpieczenia, C.H.Beck, Warszawa 2016.
  2. Orczyk J., Polityka Społeczna, Wydawnictwo Akademii Ekonomicznej w Poznaniu, Poznań 2005.
  3. Iwanicz-Drozdowska M. (red.) Ubezpieczenia, Polskie Wydawnictwo Ekonomiczne, Warszawa 2013.

### Teaching methods

1. Informative lecture.
2. Conversational lecture.
3. Case study method (during exercises).

### Bibliography

Basic

1. Ronka-Chmielowiec W. (red.), Ubezpieczenia, C.H.Beck, Warszawa 2016.
2. Orczyk J., Polityka Społeczna, Wydawnictwo Akademii Ekonomicznej w Poznaniu, Poznań 2005.
3. Iwanicz-Drozdowska M. (red.) Ubezpieczenia, Polskie Wydawnictwo Ekonomiczne, Warszawa 2013.

Additional

1. Wierzbicka E. (red.), Ubezpieczenia non-life, CeDeWu. Wydawnictwo Fachowe, Warszawa 2010.
2. Szczepański M., Ubezpieczenia w logistyce, Wydawnictwo Politechniki poznańskiej, Poznań 2011.

**Breakdown of average student's workload**

	Hours	ECTS
Total workload	50	2,0
Classes requiring direct contact with the teacher	30	1,0
Student's own work (literature studies, preparation for laboratory classes/tutorials, preparation for tests, project preparation) <sup>1</sup>	20	1,0

<sup>1</sup> delete or add other activities as appropriate
