POZNAN UNIVERSITY OF TECHNOLOGY

EUROPEAN CREDIT TRANSFER AND ACCUMULATION SYSTEM (ECTS)

pl. M. Skłodowskiej-Curie 5, 60-965 Poznań

# COURSE DESCRIPTION CARD - SYLLABUS

Course name
IT Systems Transition

**Course**

| | |
|---|---|
| Field of study | Year/Semester |
| Engineering Management | 3/6 |
| Area of study (specialization) | Profile of study |
| | general academic |
| Level of study | Course offered in |
| First-cycle studies | English |
| Form of study | Requirements |
| full-time | elective |

**Number of hours**

| Lecture | Laboratory classes | Other (e.g. online) |
|---|---|---|
| 15 | | |
| Tutorials | Projects/seminars | |
| 15 | | |

**Number of credit points**
2

**Lecturers**

Responsible for the course/lecturer:

Ph.D., Eng. Zbigniew Włodarczak

Mail to: zbigniew.wlodarczak@put.poznan.pl

Phone: +48 61 665 33 87

Faculty of Engineering Management

ul. J. Rychlewskiego 2, 60-965 Poznań

Responsible for the course/lecturer:

Ph.D., Eng. Aleksander Jurga,

Mail to: aleksander.jurga@put.poznan.pl

Phone: +48 61 665 33 88

Faculty of Engineering Management

ul. J. Rychlewskiego 2, 60-965 Poznań

**Prerequisites**

Knowledge of the basics of management, organization science and the basics of computer science and information systems, especially database systems.

Group work, interest in IT techniques

POZNAN UNIVERSITY OF TECHNOLOGY

EUROPEAN CREDIT TRANSFER AND ACCUMULATION SYSTEM (ECTS)

pl. M. Skłodowskiej-Curie 5, 60-965 Poznań

## Course objective

Understand the role of IT systems in an enterprise. To familiarize students with the stages of implementing IT systems and selected methodologies.

## Course-related learning outcomes

### Knowledge

Knows methods and tools for data collection, processing and selection and distribution of information in the process of implementing IT systems [P6S_WG_08]

Has basic knowledge of information systems life cycle [P6S_WG_13]

Has basic knowledge of the life cycle of industrial products in the context of implementing IT systems [P6S_WG_15]

### Skills

Is able to plan and conduct experiments, including computer measurements and simulations, interpret obtained results and draw conclusions in the process of implementing IT systems [P6S_UW_09]

Can - when implementing IT systems - see their system, socio-technical, organizational, economic and non-technical aspects [P6S_UW_11]

Is able to make a preliminary economic analysis of IT implementations [P6S_UW_12]

### Social competences

Is aware that the implementation of IT systems requires a systematic approach taking into account technical, economic, marketing, legal, organizational and financial issues [P6S_KO_02]

Is aware of the importance and understands the non-technical aspects and effects of the implementation of IT systems, including its impact on the environment, and the associated responsibility for the decisions taken [P6S_KR_01]

## Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

The lecture grade is based on the percentage of the colloquium. Questions and tasks checking understanding of the issues. Passing threshold - 50%.
Exercise grade is the average of individual tasks performed during classes. The assessment takes into account the correctness and completeness of the results obtained.

## Programme content

Basic concepts related to the design and implementation of information systems. Meta stages of IT implementation. Barriers and technical and organizational difficulties of implementation. Implementation stages according to APICS. IT implementation strategies. IT system planning process. Model of the design process. Characteristics of selected implementation methods. A detailed discussion of the Prince2 methodology. Practical use of knowledge related to the design and implementation of information systems. Planning the IT system implementation process.

POZNAN UNIVERSITY OF TECHNOLOGY

EUROPEAN CREDIT TRANSFER AND ACCUMULATION SYSTEM (ECTS)

pl. M. Skłodowskiej-Curie 5, 60-965 Poznań

## Teaching methods

Lectures: informative lecture, problem lecture, seminar lecture, case method.
Laboratories: laboratory (experiment) method, workshop method.

## Bibliography

### Basic

## Breakdown of average student's workload

|  | Hours | ECTS |
|---|---|---|
| Total workload | 50 | 2,0 |
| Classes requiring direct contact with the teacher | 30 | 1,0 |
| Student's own work (literature studies, preparation for tutorials, preparation for tests, project preparation) [1] | 20 | 1,0 |
