## EUROPEAN CREDIT TRANSFER AND ACCUMULATION SYSTEM (ECTS)

pl. M. Skłodowskiej-Curie 5, 60-965 Poznań

The student starting this subject should have a basic knowledge of economicsand finance. He should be able to independently obtain information from various sources and be ready to start teamwork

#### **Course objective**

The aim of the course is to familiarize students with knowledge and basic skills in the field of business insurance, allowing them to independently develop an insurance program for an enterprise, compare and negotiate offers of various insurers regarding insurance services (in the field of economic insurance) and be able to use the insurance method to manage risk in an enterprise.

### **Course-related learning outcomes**

#### Knowledge

- 1. The student has in-depth knowledge of insurance product standards (services) and knowledge of basic legal regulations in the field of economic insurance and understand their impact on organizations [P7S\_WG\_01].
- 2. Has extended knowledge of risk management in business operations using the insurance method [P7S\_WG\_04].
- 3. The student knows and understands the basic concepts and principles in the field of industrial property protection and copyright, and the need to manage intellectual property resources using business insurance [P7S\_WK\_02]

#### Skills

- 1. The student has the ability to use the acquired knowledge in various areas and forms, extended by a critical analysis of the effectiveness and usefulness of applied knowledge in the field of business insurance [P7S\_UW\_03].
- 2. The student has the ability to independently propose solutions to a specific management problem (in particular problems related to risk management), using business insurance [P7S\_UW\_04].
- 3. The student is able to bear responsibility for own work and jointly implemented tasks and manage team work [P7S\_UO\_01].

#### Social competences

- 1. The student is aware of the interdisciplinary knowledge and skills needed to solve complex organization problems and the need to create interdisciplinary teams using specialized insurance knowledge [P7S\_KK\_01].
- 2. The student is able to initiate activities for social projects, taking into account the aspect of risk management using the insurance method [P7S\_KO\_02].
- 3. Student is able to plan and manage business ventures, using knowledge in the field of business insurance[P7S\_KO\_03].

### EUROPEAN CREDIT TRANSFER AND ACCUMULATION SYSTEM (ECTS)

pl. M. Skłodowskiej-Curie 5, 60-965 Poznań

### Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

The effects of knowledge obtained during the exercises will be verified in the form of assessments for activity during classes and assessment of written projects prepared in teams (project of insurance protection of the selected company). The effects of knowledge obtained during the lectures will be verified in the form of a final test (final test).
