

COURSE DESCRIPTION CARD - SYLLABUS

Course name

Microeconomics

Course

Field of study

Engineering Management

Area of study (specialization)

Level of study

First-cycle studies

Form of study

full-time

Year/Semester

1/1

Profile of study

general academic

Course offered in

Polish

Requirements

compulsory

Number of hours

Lecture

45

Laboratory classes

Other (e.g. online)

Tutorials

15

Projects/seminars

Number of credit points

5

Lecturers

Responsible for the course/lecturer:

Ph.D., D.Sc., Marek Szczepański, University Professor

Mail to: marek.szczepanski@put.poznan.pl

Phone: 61 665 33 93

Faculty of Engineering Management

ul. J. Rychlewskiego 2, 61-131 Poznań

Responsible for the course/lecturer:

Ph.D., D.Sc., Mariya Khmelyarchuk, University Professor

Mail to: mariya.khmelyarchuk@put.poznan.pl

Phone: 730 723 552

Faculty of Engineering Management

ul. J. Rychlewskiego 2, 61-131 Poznań

Prerequisites

Knowledge: the student has basic knowledge of mathematics, has basic knowledge of the economy.

Skills: the student understands and analyzes the basic socio-economic phenomena, correctly uses the basic terms acquired during entrepreneurship learning.

Social competences: the student actively and willingly undertakes entrepreneurial activities and works in a group.

Course objective

To familiarize students with the basic concepts of the theory of microeconomics. Transfer of knowledge about the principles of market operation. To familiarize students with the basic tools of microeconomic

analysis. Acquiring the skills of independent decision-making by the students from the consumer and producer point of view.

Course-related learning outcomes

Knowledge

1. Student has knowledge about the impact of economic factors on the security of institutions and management processes [P6S_WG_01]
2. Student knows the relationship between microeconomic phenomena [P6S_WG_01]
3. Student has knowledge about the effects of mergers on the market economy [P6S_WK_04]
4. Student knows models of market structures [P6S_WG_01]
5. Student knows the concept of an enterprise and its functions in a market economy. [P6S_WG_01]
6. Student knows the concepts and market phenomena [P6S_WG_01]
7. Student knows the basic costs in the short and long term [P6S_WK_04]
8. Student knows the economic aspects of the functioning of non-profit organizations [P6S_WG_01]

Skills

1. Student is able to verify and evaluate market phenomena and processes [P6S_UW_05, P6S_UW_06]
2. Student is able to use economic factors to improve management processes [P6S_UW_06]
3. Student is able to estimate various types of costs incurred by the producer [P6S_UW_06]
4. Student is able to solve tasks in the field of elasticity of demand, supply, consumption, production and production costs [P6S_UW_05]
5. Student is able to assess the impact of economic factors on the security of an institution [P6S_UW_06]
6. Student can set up his own business [P6S_UW_02]
7. Student is able to interpret and evaluate basic models of market structures [P6S_UW_06]

Social competences

1. Student is aware of the complexity of the conditions for the functioning of a modern manufacturer [P6S_KO_02]
2. Student is able to cooperate and make substantive contribution in the implementation of joint tasks [P6S_KO_01]

Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

Initial assessment:

a) tutorials - the assessment based on: current progress in the implementation of tasks assessed by written assignments - tests, active participation in classes, tasks performed alone or in groups, and attendance (one absence is allowed);

b) lectures - the assessment based on answers to questions about the material learned in lectures,

Final grade:

a) tutorials - the assessment based on a positive evaluation of the final test

b) lectures - the assessment based on oral exam or in the form of a test.

Programme content

1. Economics and its division. The opportunity cost. Main theories of economics.
2. Basic economic concepts. Main principles of management.
3. Full and limited rationality. Homo oeconomicus and homo sociologicus model.
4. The market in the modern world.
5. Demand and supply.
6. Market equilibrium and imbalance.
7. Public sector in the economy.
8. Elasticity of demand and supply.
9. Costs in the short and long term.
10. Market behavior of the enterprise I.
11. Market behavior of the enterprise II.
12. The theory of consumer choice.
13. Perfect competition.
14. Monopoly on the market.
15. Enterprise and its functions.
16. The balance of organization in the competitive market and the labor market.
17. Impact of economic factors on institution security and management processes.
18. Organizations in building social well-being.
19. Economical aspects of non-profit organization functioning.

Teaching methods

Informative lecture with elements of problem lecture. Use of mindmapping method. Case study method and brainstorming.

Exercise method (application of acquired knowledge in practice - calculation of tasks). Seminar discussion.
