

## COURSE DESCRIPTION CARD - SYLLABUS

Course name

Rights and obligations

### Course

Field of study

Aviation

Area of study (specialization)

--

Level of study

First-cycle studies

Form of study

full-time

Year/Semester

1/1

Profile of study

general academic

Course offered in

Polish

Requirements

compulsory

### Number of hours

Lecture

4

Laboratory classes

Tutorials

Projects/seminars

Other (e.g. online)

### Number of credit points

### Lecturers

Responsible for the course/lecturer:

dr inż. Marlena Kucz, prof. PP

email: marlena.kucz@put.poznan.pl

tel. 616652864

WILIT

ul. Piotrowo 5 60-965 Poznań

Responsible for the course/lecturer:

Head of Student Council

### Prerequisites

The student knows the basic concepts related to the essence of interpersonal communication, knows the interpersonal rules, knows the basics of savoir vivre. General knowledge at the high school level in the humanities, natural and social subjects.

### Course objective

The main purpose of the training is to introduce new students to university life, learn about the rules of the university, present the Student Council as the first line of support, provide them with information from "older colleagues" that will always be better assimilated than those written on the website or briefly provided at an organizational meeting with 1st year students.

### Course-related learning outcomes

#### Knowledge

The student has knowledge of ethical codes regarding transport engineering, is aware of the dangers related to environmental protection and understands the specificity of mission-critical systems

#### Skills

The student is able to organize, cooperate and work in a group, assuming various roles in it, and is able to properly define priorities for the implementation of a task set by himself or others

The student is able to plan and implement the process of own life long learning and knows the possibilities of further education (second and third degree studies, postgraduate studies, courses and exams conducted by universities, companies and professional organizations)

#### Social competences

The student is aware of the social role of a technical university graduate, in particular, he/she understands the need to formulate and transfer to the society, in an appropriate style, information and opinions on engineering activities, technological achievements, as well as the achievements and traditions of the transport engineer profession

### Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

Obligatory attendance. Confirmation with signature on the attendance list.

### Programme content

Student status, study regulations, organization of studies, university work, ways of writing emails, absences, excuse for absences, scholarships, help from colleagues etc

### Teaching methods

Presentation, discussion

### Bibliography

Basic

1. Study regulations

3. Rector ordinances

Additional

### Breakdown of average student's workload

	Hours	ECTS
Total workload	8	0,0
Classes requiring direct contact with the teacher	4	0,0
Student's own work (literature studies, preparation for laboratory classes/tutorials, preparation for tests/exam, project preparation) <sup>1</sup>	4	0,0

<sup>1</sup> delete or add other activities as appropriate
