GALLERY

The designed facility is located in Poznań, in the direct vicinity of the Warta River and Poznań University of Technology. The building has a characteristic shape - a frame building with a trapezoidal base. We wanted to introduce the maximum amount of natural greenery into the site and the main purpose of the project was to create exhibition and cultural spaces. We decided to create a green roof, which we shaped in steps, and the individual floors are connected by a ramp that goes around the entire
